Pediatric Dentistry

About Our Practice

OUR PHILOSOPHY

Our goals are to help children achieve optimum oral health and to make children feel comfortable in a setting designed especially for them. These goals require the cooperation of the child, the parents, and the dentist. We believe that prevention of disease is far more enjoyable, less costly, and more comfortable for all concerned.

Preventive maintenance can keep dental problems to a minimum. Dental health also depends upon good habits such as proper tooth brushing, use of dental floss, proper diet, and regular professional care. Education is an integral component of each visit.
